Grant Agreement negotiations for 2018-22

... this letter does not constitute an offer of funding. A formal offer by the Commonwealth **is subject to successful negotiations of a funding agreement** and no legal obligations shall arise unless and until a funding agreement is signed by the Commonwealth.

Grant Agreement negotiations for 2018-22

For the TIS program going forward, there will be specific requirements for TIS organisations, namely all will be required to:

- prioritise **evidence-based population health** approaches with **maximum reach** within their identified **TIS region**;
- ensure that Indigenous people **who do not attend** Aboriginal Community Controlled Health Services (**ACCHS**) or Aboriginal Medical Services (AMS') **are targeted and reached**; and
- provide evidence of **how their primary health care funding** (where provided by the Commonwealth) **is being used to complement TIS activities** as part of a larger mix of tobacco cessation interventions.

Grant Agreement negotiations for 2018-22

...negotiations will be **based on a range of information** including:

- the above requirements;
- the IAHP Programme **Guidelines**;
- the **TIS program evaluation** (2015-16 to 2017-18); and
- TIS **organisations' performance reports** to the Department.
